Product Description

Bigfoot Trailers - YETI 15K Tilt Trailer

Introducing the new YETI 15K Tilt Trailer, the ultimate companion for all your heavy-duty hauling needs. Crafted with precision in Florida, U.S.A., this steel constructed trailer is built to withstand even the toughest jobs. With its impressive 15,000 GVWR, this trailer means business. The heavy-duty 8" I-beam frame and structural 3" channel cross members ensure unmatched durability and strength. Unlike other trailers, we don't compromise on quality by using cheap formed channel pieces.

Equipped with two chambered Dexter Nev-R-Adjust Torflex Torsion Axles, each with self-adjusting brakes, this trailer offers superior performance and safety on the road.

- **GVWR:** 14,900
 - **Axles:** 7k FWD Self Adj Brake Drop Axle
 - **Load Capacity:** Approx. 11,000 LBS
 - **Finish:** Bigfoot Evercoat Paint System
-
