Product Description

Bigfoot Trailers - 70 Series Car Hauler

Introducing the 70 Series car hauler, a 7,000 GVWR trailer capable of a payload of 5,200 lbs. This heavy-duty trailer is great for transporting almost any vehicle, with lengths available up to 26' and 83" between fenders. It is also available in shallow dovetail for low riding cars or sports cars. The frame is made from structural channel, the axles are 3.5k FWD Self Adj Brake/Idlers, and the tires are 6 Ply Radials. With a 5,000 lbs. Top Wind Jack and A Frame 2 5/16" Coupler, it is easy to attach and detach the trailer. The 60" Stow Ramps make loading and unloading a breeze. All LED Plug & Play Harness ensures your lights are always ready to go, while the pressure treated wood deck and 10 stake pockets provide extra security and stability. Lengths available are 18', 20', 22' and 24'. Get your 70CH Series car hauler today and get to hauling!
