Product Description

CID Pallet Forks & Frame

Anyone that owns a skid steer should have a set of forks on hand. Forks are ideal for lifting pallets, loading lumber or just about anything else. Our forks are completely heat treated and rated to carry 8,500 lbs. We put a step on both sides of our frames so the operator can easily climb into the cab. We offer a large variety of ranges included here such as heavy duty, walk-thru, JD, fork grapple, hydraulic heavy duty, etc. Euro Style, John Deere, and other mounts available. Generally speaking: Tine sizes range from: 36-96" largely depending on weight rating, and size of the frame you buy.
