Product Description

CID Pallet Forks & Frame

Anyone that owns a skid steer should have a set of forks on hand. Forks are ideal for lifting pallets, loading lumber or just about anything else. Our forks are completely heat treated and rated to carry between 1,000-2,000 lbs depending on hookup. We offer a large variety of ranges included here such as heavy duty, walk-thru, JD, fork grapple, hydraulic heavy duty, etc. Euro Style, John Deere, and other mounts available. Generally speaking: Tine sizes range from: 36-96" largely depending on weight rating, and size of the frame you buy.
