Product Description

CID X-TREME ROOT GRAPPLE

The X-treme Root Grapple is the grapple of choice for those who need an attachment that will hold up in severe applications. It can handle more material and is more rugged than our other grapples. It's built from 5/8" thick steel plate on the top, 1/2" on bottom, and incorporates 4" square tubing. It also features enclosed hydraulic cylinders and rods. Cylinder covers come standard on all our grapples.
