Product Description

CID Concrete Buckets

This skid steer concrete bucket is built for hauling and pouring concrete with precision. Designed for tight job sites, it helps place concrete where trucks can't reach, without waste. Available in 1/2 and 3/4 yard capacities, with an optional hydraulic chute for controlled flow. Built tough for contractors who need efficient concrete placement.

Key Features:

- Available in 1/2 yard (60") and 3/4 yard (60") widths
 - Optional hydraulic chute for controlled concrete placement
 - Reduces concrete waste and improves jobsite efficiency
 - Heavy-duty 3/16" steel construction for durability
-
