Product Description

IronCraft 3200 Series: 7' Heavy-Duty Box Blade Scraper

The **IronCraft 3207** is a high-capacity **84" Heavy-Duty Box Blade** engineered for the most demanding earthmoving tasks. Designed for tractors between **30 and 70 horsepower**, this 7-foot scraper excels at ripping compacted soil, grading expansive building sites, and leveling large-scale landscaping projects. Built for industrial-strength performance, the 3200 Series features an **ultra-tough 1/2" A-frame** and is **Category 1 and 2 Quick Hitch compatible**. Whether you are maintaining a commercial farm or preparing a foundation, this box blade provides the weight and structural integrity needed for aggressive soil penetration and material spreading.

Industrial Strength & Performance Features

- **Six Heavy-Duty Ripper Shanks:** Features 6 adjustable shanks designed to break up hard-packed clay, rock-embedded soil, and sun-baked earth.
- **Reinforced Frame:** Constructed with 1/2" A-frame material to withstand the high-torque stresses of 70 HP tractors.
- **Dual Reversible Cutting Edges:** Equipped with 6" high-carbon steel cutting edges for precision grading and an extended service life.
- **High-Volume Box Design:** A 17" moldboard height and 22" depth allow for moving massive amounts of dirt, gravel, or topsoil in a single pass.

Technical Specifications (Model 3207)

- **Working Width:** 84" (7 Feet)
- **Horsepower Requirement:** 30 - 70 Engine HP
- **Number of Shanks:** 6 Adjustable Heavy-Duty Shanks
- **Weight:** 586 lbs for maximum down-pressure
- **Hitch Compatibility:** Dual Category 1 & 2 (Cat 1 & 2)

Build Quality & Dimensions

- **Moldboard Height:** 17"
- **Box Depth:** 22"

- **A-Frame Material:** 1/2" Reinforced Steel
- **Cutting Edge Size:** 6" Reversible
- **Quick Hitch Ready:** Fully compatible with Cat 1 and Cat 2 Quick Hitch systems

Heavy-Duty Applications

- **Construction & Site Prep:** Professional-grade leveling around foundations and road beds.
 - **Commercial Landscaping:** Spreading large volumes of topsoil and sub-grade material with ease.
 - **Agricultural Maintenance:** Maintaining heavy-traffic farm roads and clearing large livestock areas.
 - **Gravel Road Grading:** Perfect for repairing deep potholes and redistributing heavy road base.
-
