Product Description

IronCraft 4300 Series: 7' Standard-Duty Grader Blade with Tilt

The **IronCraft 4307** is a high-capacity **84" Standard-Duty Grader Blade** engineered for tractors between **15 and 40 horsepower**. This 7-foot rear blade is the ultimate multi-purpose attachment for moving topsoil, grading expansive gravel driveways, clearing heavy snow, and managing large-scale leveling or backfilling projects.

As the widest model in the rugged 4300 Series, the 4307 is **Category 1 Quick Hitch compatible**. It offers professional-grade flexibility with both angle and tilt adjustments, allowing you to cut drainage ditches, crown roads, and maintain slopes with precision that basic economy blades cannot match.

Key Precision & High-Capacity Features

- **Wide 84" Working Width:** Maximum coverage to ensure you clear your tractor's tracks even at an angle.
- **Dual-Axis Maneuverability:** Includes a 5-position angle adjustment (forward and reverse) and a 3-position tilt adjustment for specialized land contouring.
- **High-Volume Moldboard:** A 14" blade height allows for superior material rolling, making it highly effective for deep snow or heavy soil distribution.
- **Industrial Cutting Edge:** Equipped with a 6" high-carbon steel cutting edge that is both reversible and replaceable for a maximum service life.

Technical Specifications (Model 4307)

- **Working Width:** 84" (7 Feet)
- **Horsepower Requirement:** 15 - 40 Engine HP
- **Angle Adjustment:** 5-Position (Forward and Reverse)
- **Tilt Adjustment:** 3-Position functionality for sloped grading
- **Weight:** 276 lbs for optimized ground pressure

Build Quality & Hitch Compatibility

- **Hitch Type:** Category 1 (Cat 1) Quick Hitch Ready
- **A-Frame Material:** Reinforced 3/8" steel for long-term structural integrity.

- **Cutting Edge Size:** 6" Reversible High-Carbon Steel.
- **Overall Height:** 14" moldboard for high-capacity material handling.

Primary Applications

- **Large Property Maintenance:** Efficiently grade long gravel roads and private drives.
 - **Ditching & Water Management:** Use the 3-position tilt function to cut V-ditches and direct water runoff away from roads and buildings.
 - **Snow Clearing:** The 7-foot width makes quick work of clearing parking areas, barn lots, and wide driveways.
 - **Landscape Leveling:** Ideal for spreading topsoil over large garden plots or backfilling utility trenches.
-
