Product Description

IronCraft 4400 Series: 5' Professional Offset Grader Blade

The **IronCraft 4405** is a high-versatility **60" Offset Grader Blade** engineered for tractors between **35 and 60 horsepower**. This 5-foot blade is a professional-grade solution for moving topsoil, grading gravel, and clearing snow, offering advanced maneuverability that standard blades cannot match.

Designed for years of reliable performance, the 4400 Series is **Category 1 Quick Hitch compatible**. Its standout feature is the **triple-axis adjustability**, allowing for precise control over the blade's angle, tilt, and lateral offset, making it the premier choice for complex ditching and road maintenance.

Advanced Precision & Technical Features

- **Triple-Axis Adjustment:** Includes a 5-position angle adjustment, a 3-position tilt adjustment, and a 5-position offset adjustment for ultimate grading control.
- **Lateral Offset Capability:** The 5-position offset allows you to move the blade outside the tractor's tire path—perfect for grading next to fences, buildings, or deep ditches.
- **High-Capacity Moldboard:** Features a 15-1/2" tall blade made from 3/16" thick steel, designed to roll and move large volumes of material efficiently.
- **Reversible Cutting Edge:** Equipped with a 6" high-carbon steel reversible cutting edge to ensure a long service life and a clean finish.

Technical Specifications (Model 4405)

- **Working Width:** 60" (5 Feet)
- **Horsepower Requirement:** 35 - 60 Engine HP
- **Weight:** 323 lbs for superior ground engagement
- **Hitch Compatibility:** Category 1 (Cat 1) Quick Hitch Ready
- **Moldboard Height:** 15-1/2" reinforced steel

Industrial Build & Hardware

- **A-Frame Construction:** Heavy-duty 3/8" steel A-frame for maximum structural integrity.
- **Moldboard Thickness:** Durable 3/16" steel construction.
- **Adjustability:** 5-position angle, 3-position tilt, and 5-position offset.

- **Versatile Operation:** Angle adjustment works in both forward and reverse positions.

Specialized Grading Applications

- **Ditching & Shoulder Work:** Use the offset and tilt functions to cut and clean drainage ditches while keeping the tractor on level ground.
 - **Precision Edging:** Offset the blade to grade right up against fence lines, foundations, or retaining walls.
 - **Driveway Crowning:** Easily create a center crown on gravel roads to ensure proper water runoff.
 - **Heavy Material Moving:** Ideal for spreading thick topsoil, managing manure piles, or clearing heavy snow.
-
