Product Description

IronCraft 4400 Series: 7' Professional Offset Grader Blade

The **IronCraft 4407** is a high-capacity **84" Offset Grader Blade** engineered for tractors between **35 and 60 horsepower**. This 7-foot rear blade is the ultimate choice for large-scale property maintenance, offering the width and mechanical flexibility required to move topsoil, grade long gravel drives, and clear heavy snow with ease.

Built for industrial-grade reliability, the 4407 is **Category 1 Quick Hitch compatible**. Its standout feature is the **triple-axis adjustability**, providing manual control over angle, tilt, and lateral offset—essential for professional-grade ditching, road crowning, and clearing alongside fence lines.

Advanced Precision & Technical Features

- **Triple-Axis Maneuverability:** Features a 5-position angle adjustment, a 3-position tilt adjustment, and a 5-position lateral offset for total grading control.
- **84-Inch Wide Coverage:** The 7-foot width ensures you clear your tractor's tire tracks even when the blade is at an aggressive angle.
- **Lateral Offset Capability:** Shift the blade outside the tractor's footprint to grade safely next to buildings, steep banks, or fence posts.
- **High-Capacity Moldboard:** A 15-1/2" tall blade constructed from 3/16" thick steel allows for superior material rolling and high-volume moving.

Technical Specifications (Model 4407)

- **Working Width:** 84" (7 Feet)
- **Horsepower Requirement:** 35 - 60 Engine HP
- **Weight:** 353 lbs for robust ground engagement
- **Hitch Type:** Category 1 (Cat 1) Quick Hitch Ready
- **Cutting Edge:** 6" Reversible High-Carbon Steel

Industrial Build Quality

- **Frame Construction:** Reinforced 3/8" steel A-frame designed to handle the torque of 60 HP tractors.
- **Moldboard Thickness:** Durable 3/16" steel thickness for long-term structural integrity.

- **Adjustment Versatility:** 5-position angle adjustment works in both forward and reverse operation.
- **Hardware:** Heat-treated pins and high-strength pivots for years of reliable service.

Specialized Grading Applications

- **Driveway & Road Crowning:** The 7-foot width and tilt function make it easy to restore the center crown on gravel roads for better drainage.
 - **Ditching & Shoulder Maintenance:** Use the combined offset and tilt to clean out drainage ditches while keeping the tractor on stable, level ground.
 - **Fence Line Clearing:** Offset the blade to scrape right up to the edges of your property without risking damage to the tractor.
 - **Snow & Manure Management:** The large moldboard and wide width are ideal for clearing expansive farm lots and parking areas.
-
