### Product Description

#### IronCraft 5100 Series: 5' Standard-Duty Landscape Rake

The **IronCraft 5105** is a versatile **60" Landscape Rake** designed for tractors ranging from **20 to 45 horsepower**. Engineered for professional site preparation, this 5-foot rake is the go-to implement for spreading stone, clearing debris, and leveling soil for new seedbeds.

Built with a rugged **4" x 4" angle mainframe**, the 5105 is **Category 1 Quick Hitch compatible**. Whether you are maintaining a golf course, terracing a hillside, or managing a reforestation project, this rake provides the durability and precision required for demanding outdoor tasks.

#### Precision Site Prep & Performance Features

- **Versatile 5-Position Angle Adjustment:** Easily adjust the rake angle in both forward and reverse positions to windrow debris or reshape soil contours.
- **High-Density Tine Configuration:** Features 6 tines per foot to ensure thorough debris collection and fine soil finishing.
- **Heavy-Duty A-Frame:** Constructed with 3/8" material for increased structural integrity under load.
- **Rugged Mainframe Construction:** The 4" x 4" angle steel frame provides the rigidity needed for consistent grading and leveling.

#### Technical Specifications (Model 5105)

- **Working Width:** 60" (5 Feet)
- **Horsepower Requirement:** 20 - 45 Engine HP
- **Hitch Type:** Category 1 (Cat 1) Quick Hitch Compatible
- **Angle Positions:** 5 Forward / 5 Reverse
- **Tine Density:** 6 High-Strength Tines per Foot
- **Weight:** 180 lbs for agile and effective soil grooming

## Primary Landscaping & Maintenance Applications

- **Seedbed Preparation:** Remove rocks and roots to create a smooth, clean surface for grass seed or sod installation.
  - **Driveway & Trail Maintenance:** Spread gravel and reshape surfaces to eliminate potholes and improve drainage.
  - **Debris Management:** Quickly clear sticks, leaves, and trash from large turf areas or construction sites.
  - **Erosion & Run-off Control:** Shape ditches and terrace hillsides to manage water flow and prevent soil loss.
-
