### Product Description

#### IronCraft 5100 Series: 6' Standard-Duty 3-Point Landscape Rake

The **IronCraft 5106** is a versatile **72-inch Landscape Rake** designed for tractors between **25 and 45 HP**. Engineered for professional-grade site preparation, this 6-foot rake is the ultimate tool for clearing debris, spreading stone, and grading soil. Whether you are prepping a seedbed or maintaining a gravel driveway, the 5106 provides the precision and durability required for demanding outdoor projects.

Built with a rugged **4" x 4" angle mainframe** and 3/8" A-frame material, this rake is **Category 1 Quick Hitch compatible**. Its ability to pivot and angle makes it indispensable for specialized tasks like terracing hillsides, shaping runoff ditches, and managing golf course bunkers.

#### High-Performance Grading & Grooming Features

- **6-Foot Working Width:** Covers a wide path to increase efficiency on large residential estates and commercial jobsites.
- **5-Position Versatility:** Features a multi-angle adjustment system that works in both **forward and reverse**, allowing you to push or pull debris with ease.
- **Dense Tine Spacing:** Equipped with 6 tines per foot, ensuring a fine finish when raking out smaller rocks and roots while leaving clean soil behind.
- **Heavy-Duty Construction:** The 229 lb frame provides the necessary weight for effective ground contact without overloading compact tractor hydraulics.
- **Quick Hitch Ready:** Designed for fast, one-person attachment to modern Cat 1 3-point systems.

#### Technical Specifications (Model 5106)

- **Working Width:** 72" (6 Feet)
- **Horsepower Requirement:** 25 - 45 HP
- **Mainframe:** 4" x 4" High-Strength Angle Iron
- **Angle Adjustment:** 5 Positions (Forward and Reverse)

- **Tine Density:** 6 Tines Per Foot
- **Unit Weight:** 229 lbs
- **Hitch Type:** Category 1 (Cat 1)

#### **Primary Landscaping & Estate Applications**

- **Seedbed Preparation:** Remove surface rocks and debris to create a smooth, clean surface for grass seed or sod.
  - **Driveway & Trail Maintenance:** Spread and level gravel or crushed stone to fill potholes and smooth out washouts.
  - **Erosion & Runoff Control:** Shape ditches and terrace slopes to manage water flow and prevent soil loss.
  - **Reforestation & Cleanup:** Clear small sticks and brush from wooded areas or pastures to promote new growth.
-
