Product Description

IronCraft 5100 Series: 8' Heavy-Duty 3-Point Landscape Rake

The **IronCraft 5108** is an expansive **96-inch Landscape Rake** engineered for tractors between **35 and 45 HP**. This 8-foot model is the ultimate choice for professionals who need to cover large acreage quickly, offering unmatched efficiency in cleaning, debris removal, and soil reshaping. Whether you are prepping a commercial site for seeding or maintaining golf course grounds, the 5108 delivers a clean, level finish every time.

Constructed with a rugged **4" x 4" angle mainframe** and 3/8" A-frame materials, this rake is **Category 1 Quick Hitch compatible**. Its heavy-duty design allows for precise control when terracing hillsides, shaping runoff ditches, or managing large-scale reforestation projects.

High-Capacity Grading & Professional Features

- **Wide 8-Foot Coverage:** The 96" width is perfect for covering the wider tire tracks of utility tractors and finishing large lots in fewer passes.
- **5-Position Angling System:** Easily adjust the rake to five different angles in both **forward and reverse** to windrow rocks or push debris exactly where you need it.
- **Superior Tine Density:** Features 6 high-carbon steel tines per foot to ensure maximum debris collection and fine soil grooming.
- **Durable Mainframe:** Built with a 4" x 4" angle iron frame to withstand the lateral stress of heavy grading and rock spreading.
- **Efficiency-Focused Design:** Weighing 285 lbs, it provides the necessary down-pressure for effective raking while remaining manageable for mid-sized tractors.

Technical Specifications (Model 5108)

- **Working Width:** 96" (8 Feet)
- **Horsepower Requirement:** 35 - 45 HP

- **Mainframe Construction:** 4" x 4" High-Strength Angle Iron
- **Angle Positions:** 5 (Forward and Reverse)
- **Tine Spacing:** 6 Tines Per Foot
- **Unit Weight:** 285 lbs
- **Hitch Compatibility:** Category 1 (Cat 1)

Primary Commercial & Large-Scale Applications

- **Site Preparation:** Clear large construction sites of rocks, roots, and trash to create a pristine seedbed for grass or sod.
 - **Golf Course & Park Maintenance:** Maintain large sand traps, gravel paths, and open turf areas with professional precision.
 - **Erosion Control & Terracing:** Efficiently shape drainage ditches and contour hillsides to manage water runoff and prevent soil erosion.
 - **Reforestation & Pasture Cleanup:** Remove invasive brush and fallen debris from wooded areas to promote healthy new growth.
-
