Product Description

IronCraft 6100 Series: 14" One Bottom Moldboard Plow

The **IronCraft 6114** is a professional-grade **14" One Bottom Moldboard Plow** engineered for tractors between **18 and 50 horsepower**. This single-bottom plow is the ideal primary tillage tool for hobby farms, nurseries, home gardens, and planting wild game food plots.

Designed to efficiently turn over and aerate the soil, the 6100 Series excels at burying crop residue and preparing a clean seedbed. Built for durability and safety, this model features **shear bolt protection** to prevent damage from hidden rocks or roots during operation.

Key Tillage & Performance Features

- **Replaceable Plow Share:** Features a 14" replaceable share and moldboard, ensuring your equipment remains sharp and effective for years of service.
- **Primary Tillage Excellence:** Specifically designed to invert the soil profile, effectively burying surface trash and aerating the earth.
- **Shear Bolt Protection:** Integrated safety mechanism protects your tractor and plow frame from structural damage upon impact with underground obstructions.
- **Optimized Weight:** At 223 lbs, this plow provides the necessary down-pressure for deep soil penetration while remaining manageable for compact tractors.

Technical Specifications (Model 6114)

- **Plow Size:** 14" Bottom
- **Horsepower Requirement:** 18 - 50 Engine HP
- **Product Family:** 6100 Series
- **Weight:** 223 lbs
- **Construction:** Heavy-duty frame with replaceable high-wear parts

Versatile Agricultural Applications

- **Hobby Farms:** Perfect for breaking new ground or preparing seasonal acreage for planting.
- **Nurseries & Gardens:** Maintain loose, aerated soil for optimal root growth and drainage.
- **Wild Game Food Plots:** Easily prepare remote plots for deer and wildlife management.

- **Residue Management:** Efficiently bury stalks and weeds to improve soil organic matter.
-
