Product Description

IronCraft 7300 Series: 6' Medium-Duty Tube Frame Disc Harrow

The **IronCraft 7320** is a high-performance **72" Tube Frame Disc Harrow** engineered for tractors between **35 and 45 horsepower**. Designed for medium-duty agricultural and commercial applications, this 6-foot harrow is the perfect implement for breaking up cultivated topsoil, leveling large garden plots, and preparing professional-grade seedbeds.

Built with a reinforced tube frame for superior rigidity, the 7300 Series is **Category 1 Quick Hitch compatible**. With 20 notched disc blades and an increased operating weight, this model provides the aggressive soil penetration needed for small farms, large nurseries, and commercial landscaping projects.

Performance & Professional Durability Features

- **20-Blade High-Density Configuration:** Features 20 notched disc blades designed to slice through surface residue and pulverize clods for a clean, even finish.
- **Maintenance-Free Sealed Bearings:** Equipped with premium sealed bearings that lock out dust and debris, ensuring a long service life with minimal maintenance requirements.
- **Heavy-Duty Tube Frame Construction:** The reinforced frame provides the necessary 700 lbs of weight to ensure consistent ground engagement without the need for additional ballast.
- **18" Notched Disc Blades:** The larger blade diameter allows for deeper soil inversion and better material flow in trashy conditions.

Technical Specifications (Model 7320)

- **Working Width:** 72" (6 Feet)
- **Horsepower Requirement:** 35 - 45 Engine HP
- **Number of Blades:** 20 Notched Discs
- **Disc Blade Size:** 18" Diameter
- **Operating Weight:** 700 lbs
- **Hitch Type:** Category 1 (Cat 1) Quick Hitch Compatible

Industrial & Agricultural Applications

- **Commercial Landscaping:** Effortlessly level and prep large-scale soil areas for new sod or seed

installation.

- **Small-Scale Farming:** An ideal primary or secondary tillage tool for row crops, pasture renovation, or cover crop integration.
 - **Nurseries & Orchards:** Maintain clean and aerated soil between rows with the maneuverable 6-foot cutting width.
 - **Wildlife Food Plots:** Heavy enough to break through thick vegetation and compacted soil for superior seed-to-soil contact in remote areas.
-
