Product Description

IronCraft 7400 Series: 6' Heavy-Duty Tubing Disc Harrow

The **IronCraft 7416** is a professional-grade **72" Heavy-Duty Disc Harrow** engineered for tractors between **35 and 60 horsepower**. Built with a reinforced heavy-wall tubing frame, this 6-foot harrow is the premier choice for commercial landscapers, large-scale farms, and construction site preparation.

Designed to handle the most demanding primary tillage tasks, the 7400 Series is **Category 1 Quick Hitch compatible**. With its massive 20-inch notched discs and significant down-pressure, this implement excels at breaking up compacted topsoil, managing heavy crop residue, and creating perfect seedbeds in challenging conditions.

Industrial Performance & Durability Features

- **Aggressive 20" Notched Discs:** Features 16 oversized notched blades that provide deeper soil penetration and superior cutting action compared to standard harrows.
- **Maintenance-Free Sealed Bearings:** Equipped with heavy-duty sealed bearings that prevent contamination from dust and moisture, ensuring long-term reliability in harsh environments.
- **Heavy-Wall Tubing Frame:** The 872 lb frame provides the structural rigidity and weight necessary to bite into hard-packed earth without the need for additional weights.
- **Wide 9" Blade Spacing:** Optimized for high-volume material flow, preventing clogging in wet soil or thick vegetation.

Technical Specifications (Model 7416)

- **Working Width:** 72" (6 Feet)
- **Horsepower Requirement:** 35 - 60 Engine HP
- **Total Weight:** 872 lbs for maximum soil engagement
- **Disc Configuration:** 16 High-Carbon Notched Blades (20" diameter)
- **Blade Spacing:** 9" for superior residue management
- **Hitch Type:** Category 1 (Cat 1) Quick Hitch Compatible

Commercial, Ranch, and Construction Applications

- **Construction Site Leveling:** Ideal for breaking up hard-pan soil and leveling grade after heavy

equipment operation.

- **Pasture Renovation:** Effortlessly slice through thick sod and thatch to prepare ground for overseeding or new crop installation.
 - **Commercial Landscaping:** Prepare large residential or industrial lots for sod with a high-speed, professional finish.
 - **Agricultural Primary Tillage:** Heavy enough to serve as a primary tillage tool for small-to-mid-sized acreage and specialty vegetable farms.
-
