Product Description

IronCraft 7400 Series: 9' Heavy-Duty Tubing Disc Harrow

The **IronCraft 7424** is a powerhouse **108" Heavy-Duty Tube Frame Disc Harrow** engineered for tractors between **60 and 80 horsepower**. This 9-foot industrial implement is the premier solution for commercial landscaping, large-scale farming, ranching, and demanding construction site preparation.

Built with a reinforced heavy-wall tubing frame for maximum structural integrity, the 7400 Series is **Category 1 and 2 Quick Hitch compatible**. With 24 massive notched discs and an impressive 1,250 lb frame, this model provides the aggressive soil penetration and leveling power required for professional-grade field finishing.

Industrial Performance & Durability Features

- **24 High-Performance Notched Discs:** Features 24 aggressive notched blades designed to slice through heavy crop residue and pulverize compacted soil in a single pass.
- **Maintenance-Free Sealed Bearings:** Equipped with premium sealed bearings that lock out dust, grit, and moisture, ensuring long-term reliability in the harshest field conditions.
- **9-Foot Wide Working Path:** The 108" cutting width provides maximum coverage for large acreage, significantly reducing the number of passes required to prep a field.
- **Heavy-Duty 20" Blades:** The large 20-inch disc diameter allows for deeper soil inversion and superior material flow through thick vegetation or clods.

Technical Specifications (Model 7424)

- **Working Width:** 108" (9 Feet)
- **Horsepower Requirement:** 60 - 80 Engine HP
- **Number of Blades:** 24 Notched Discs
- **Disc Blade Size:** 20" Diameter
- **Disc Spacing:** 9" for high-volume material flow
- **Total Weight:** 1,250 lbs for maximum down-pressure
- **Hitch Type:** Category 1 & 2 (Cat 1 & 2) Quick Hitch Compatible

Professional & Commercial Applications

- **Commercial Farming & Ranching:** Ideal for primary tillage, pasture renovation, and preparing expansive seedbeds for row crops.
 - **Construction Site Prep:** Efficiently level and break up topsoil for large-scale grading and erosion control projects.
 - **Large-Scale Landscaping:** Perfect for finishing massive soil areas for sod installation or reclamation projects.
 - **Heavy Residue Management:** Easily incorporates thick stalks, grass, and organic matter back into the soil to improve field health.
-
