Product Description

IronCraft 8200 Series: 4' Core Plug Aerator Attachment

The **IronCraft 8204** is a professional-grade **48" Core Plug Aerator** designed to relieve soil compaction and jumpstart healthy turf growth. This 4-foot model is the ideal size for residential lawns, small estates, and municipal green spaces, providing deep-soil aeration that traditional spike aerators can't match.

Equipped with a **3-point Category 1 hitch**, the 8204 is compatible with most compact tractors. By pulling small soil cores (plugs) from the ground, this implement allows oxygen, water, and essential nutrients to reach the root zone, preventing runoff and ensuring a lush, resilient landscape.

Key Benefits of Core Plug Aeration

- **Relieves Soil Compaction:** Removes physical plugs of soil to allow the surrounding ground to "relax," creating space for roots to expand.
- **Improved Water Retention:** Creates thousands of micro-reservoirs that guide water deep into the root zone instead of allowing it to pool or run off.
- **Enhanced Nutrient Delivery:** Provides a direct path for fertilizers and lime to reach the subsurface where they are most effective.
- **Increased Oxygen Exchange:** Opens the soil "lungs," allowing gas exchange that is critical for healthy microbial activity and plant respiration.

Technical Specifications (Model 8204)

- **Working Width:** 48" (4 Feet)
- **Weight (Empty):** 367 lbs for easy transport and storage
- **Weight (Water Filled):** 577 lbs for maximum penetration in dry or clay-heavy soils
- **Hitch Type:** 3-Point Mount
- **Hitch Compatibility:** Category 1 (Cat 1)

Turf Management & Ground Care Applications

- **Residential Lawn Care:** Perfect for homeowners with large acreage looking to maintain a golf-course-quality lawn.
- **Athletic Field Maintenance:** Relieve the heavy compaction caused by foot traffic on community

soccer or baseball fields.

- **Municipal Parks & Recreation:** Keep high-traffic public areas green and healthy by aerating during the spring and fall growing seasons.
 - **Small Farm & Pasture Prep:** Improve forage growth by aerating pastures to help grass compete with invasive weeds.
-
