Product Description

IronCraft 9300BP Series: 1,500 lb Capacity Heavy-Duty Boom Pole

The **IronCraft 9300BP** is a professional-grade **3-point hitch boom pole** engineered for high-capacity lifting on any farm, ranch, or shop. With a robust **1,500 lb maximum lift capacity**, this heavy-duty tool transforms your tractor into a versatile crane, capable of moving heavy implements, loading logs, or pulling vehicle engines with ease.

Built with a high-strength **tube frame construction**, the 9300BP is designed for longevity and safety. It features a **dual-hitch design**, making it fully compatible with both **Category 1 and Category 2** systems, and it is **Quick Hitch compatible** for fast, one-person attachment.

Key Features & Lifting Capabilities

- **High-Strength Tube Frame:** Engineered for structural rigidity, ensuring stable lifting performance even at maximum capacity.
- **1,500 lb Lifting Rating:** Industrial-grade capacity for moving bulky farming equipment, large logs, and heavy mechanical components.
- **Integrated Lifting Loop:** Features a secure, factory-welded loop for easy attachment of chains, cables, or hoist straps.
- **Cat 1 & 2 Versatility:** Dual-pin configuration allows for use across a wide range of sub-compact, compact, and utility tractors.
- **Quick Hitch Ready:** Designed to fit modern quick-attach 3-point systems to save you time and effort in the field.

Technical Specifications (Model 9300BP)

- **Product Family:** 9300BP Series Heavy-Duty Boom Pole
- **Frame Design:** Reinforced Steel Tube Frame
- **Maximum Lift Capacity:** 1,500 lbs
- **Hitch Compatibility:** Category 1 and Category 2 (Cat 1 & 2)
- **Attachment Type:** 3-Point Mounted
- **Lifting Point:** Reinforced Welded Steel Loop

Versatile Farm & Shop Applications

- **Equipment Maintenance:** Safely lift the front of mowers or tillers for blade changes and underside cleaning.
 - **Logs & Forestry Work:** Easily skid or lift logs for loading onto trailers or moving to a wood splitter.
 - **Mechanical Hoisting:** An essential tool for pulling car and truck engines or moving heavy shop machinery.
 - **General Farm Lifting:** Perfect for hanging butchered game, moving large seed bags, or clearing heavy debris from fence lines.
-
