Product Description

IronCraft 970 Series: 7' Extreme-Duty Roundback Rotary Cutter With Chains

The **IronCraft 970 Roundback Cutter** is a powerhouse designed for the most demanding land-clearing tasks. With a massive **84" cutting width**, this extreme-duty mower is built to slash through heavy brush and small trees up to **4” in diameter**. It is the ideal solution for roadside maintenance, commercial farm upkeep, and clearing thick overgrown acreage.

Engineered for tractors with **60 PTO horsepower and larger**, the 970 features a **smooth-top deck design**. This prevents the accumulation of water and debris, significantly reducing rust potential and making post-work cleanup fast and efficient.

Industrial Strength & Performance

- **Extreme Cutting Power:** A 175 HP-rated gearbox and 16,500 FPM tip speed provide the torque needed for thick timber and dense brush.
- **Precision Terrain Tracking:** Dual laminated tailwheels prevent "scalping" by keeping blades level across ridges, mounds, and uneven ground.
- **Driveline Security:** Equipped with a Series 6 PTO drive shaft and slip clutch protection to safeguard your tractor's drivetrain.
- **Roundback Maneuverability:** The rounded deck design allows for easier navigation through tight spaces and reduces hangups on stationary objects.

Technical Specifications

- **Working Width:** 84" (7 Feet)
- **Cutting Capacity:** Industrial-grade 4" diameter material
- **Deck Thickness:** Ultra-heavy 7-gauge steel
- **Side Bands:** 1/4" x 12" reinforced steel
- **Weight:** 1,450 lbs for maximum down-pressure and stability

Build Quality & Hardware

- **Blade System:** Heavy-duty stump jumper with a 3/16" formed plate and a massive 3/4" x 10" x 29"

blade bar.
- **Hitch Compatibility:** Category 2 (Cat 2) 3-point hitch.
- **Skid Shoes:** 1/4" thick replaceable skid shoes with a protective lip.
- **Wheel Assembly:** Dual laminated tires with high-strength bearing hubs.

Safety & Warranty

- **Gearbox Warranty:** Backed by an industry-leading 5-Year Limited Warranty.
- **Safety Guarding:** Heavy-duty safety chains come standard for debris protection.
- **Output Shaft:** Large 2" diameter output shaft built for high-stress applications.
