Product Description

IronCraft FL Series: 52" Economy Flail Mower for Compact Tractors

The **IronCraft FL-135** is a versatile and lightweight **52" economy flail mower** designed specifically for sub-compact and compact tractors. Engineered for efficiency on smaller plots, it is the ideal choice for weekend farmers, gardening enthusiasts, and property owners managing light brush and grass.

Compatible with **23 to 40 PTO horsepower tractors** using a Category 1 hitch, the FL Series offers a compact footprint without sacrificing performance. Its lightweight 386-lb design ensures your tractor remains agile while delivering a professional, mulched finish to your landscape.

Key Features & Versatility

- **Dual Cutting Options:** Comes with 24 hammers installed for heavy-duty clearing and includes 48 Y-blades for finer grass grooming.
- **Sub-Compact Optimization:** Lightweight frame (386 lbs) allows for easy maneuverability and transport on smaller tractor frames.
- **Durable Build:** Features a 9-gauge frame thickness and a 10-gauge roller to withstand regular maintenance tasks.
- **Efficient Power Transfer:** Utilizes a 3-belt drive system to maintain consistent rotor speed.

FL-135 Technical Specifications

- **Working Width:** 52" (4.3 Feet)
- **Required Horsepower:** 23 - 35 PTO HP
- **Hitch Type:** Category 1 (Cat 1)
- **Hammer/Blade Count:** 24 Hammers or 48 Y-Blades
- **Overall Width:** 57"

Build Quality & Hardware

- **Rotor Diameter:** Heavy-duty 5/16" thickness for balanced rotation.
- **Roller Design:** 10-gauge diameter for consistent height tracking.
- **Frame Construction:** 9-gauge steel ensures structural integrity for light-duty applications.
- **Drive System:** 3-belt configuration for reliable performance.

Ideal Applications

- **Hobby Farming:** Perfect for maintaining small pastures and paddocks.
 - **Estate Maintenance:** Ideal for large gardens and orchards where space is limited.
 - **Light Brush Clearing:** Capable of handling weeds and light overgrowth using the installed hammers.
-
