Product Description

IronCraft FL Series: 64" Economy Flail Mower

The **IronCraft FL-165** is a versatile and **compact flail mower** specifically engineered for sub-compact and compact tractors. Ideal for **weekend farmers** and detailed gardening projects, this mower delivers professional results on a smaller scale, requiring only **25 to 40 PTO horsepower**.

Designed for maximum flexibility, the FL series is lightweight yet durable, making it easy to maneuver in tight spaces while maintaining high-quality cutting performance. Whether you are clearing light brush or maintaining a pristine lawn, this **64" economy mower** is built to adapt to your specific land management needs.

Key Features & Versatility

- **Dual Cutting Options:** Comes with hammers installed for heavy-duty clearing and includes Y-Blades in the unit for finer grass cutting.
- **Tractor Compatibility:** Designed for Category 1 hitches, making it a perfect match for smaller utility tractors.
- **Compact Design:** A lightweight frame of 518 lbs allows for easy transport and reduced ground pressure.
- **Efficient Power Transfer:** Utilizes a reliable 3-belt drive system for consistent rotor speed.

Technical Specifications (FL-165)

- **Working Width:** 64" Cutting Path
- **HP Requirement:** 25 - 40 PTO HP
- **Cutting Components:** 24 Hammers or 48 Y-Blades
- **Overall Width:** 69" total footprint
- **Operating Weight:** 518 lbs

Durable Construction & Build

- **Frame Strength:** Constructed with a 9-gauge steel frame.
- **Rotor Integrity:** Features a 5/16" thick rotor diameter for high-speed stability.
- **Rear Roller:** Includes a 10-gauge thick roller to ensure an even cut height.

- **Drive System:** 3-belt transmission for smooth operation and protection against shock loads.

Maintenance & Application

- **Ideal Usage:** Best suited for hobby farms, large gardens, and light landscape maintenance.
 - **Easy Serviceability:** Simple belt tensioning and accessible grease points for long-term reliability.
 - **Tractor Type:** Recommended for sub-compact or compact tractors with Category 1 hitches.
-
