Product Description

IronCraft FMH Series: 86.5" Standard-Duty Flail Mower

The **IronCraft FMH-220** is a versatile and robust **standard-duty flail mower** designed for tractors between **50 and 70 PTO horsepower**. With its expansive 86-1/2" working width, this mower is the perfect solution for maintaining large pastures, clearing brush up to 1.5" thick, and achieving a professional finish on uneven terrain.

Engineered for precision and durability, the FMH series features a **Category 1 hitch** and integrated **hydraulic side shift**. This allows operators to easily maneuver the mower along fence lines, edges, and obstacles without repositioning the tractor, significantly increasing efficiency in the field.

Performance & Professional Features

- **Hydraulic Offset:** Features a 12" hydraulic side shift for superior control in tight spaces.
- **Heavy-Duty Hammers:** Comes standard with 28 hammer flails designed to pulverize grass and woody material up to 1.5" in diameter.
- **Clean Cut Technology:** Includes a standard rear roller and integrated rakes to ensure a smooth, even finish across your property.
- **Optional Versatility:** While hammers are standard for brush, optional knife blades are available for those seeking a finer finish for grass.

Technical Specifications (Model FMH-220)

- **Working Width:** 86-1/2"
- **HP Requirement:** 50 - 70 PTO HP
- **Cutting Capacity:** Material up to 1.5" thick
- **Hitch Type:** Category 1 (Cat 1)
- **Weight:** 1,116 lbs for stable operation

Build Quality & Drivetrain

- **Hammer Count:** 28 high-impact hammers
- **Drive System:** 4-belt drive system for consistent power and slip protection
- **Overall Width:** 93" total footprint

- **Rear Roller:** Standard equipment for height control and soil compaction
- **Integrated Rakes:** Standard feature to ensure debris is properly mulched

Maintenance & Application

- **Edge Maintenance:** Hydraulic side shift makes it the best flail mower for fence lines and roadside edges.
 - **Dual-Purpose Capability:** Transition from brush clearing to finish mowing with optional knife blade compatibility.
 - **Accessible Service:** Designed for easy access to belts and grease points to maximize machine uptime.
-
