Product Description

IronCraft FRF-165: 63" Heavy-Duty Offset Flail Mower

The **IronCraft FRF-165 Offset Flail Mower** is a versatile, multi-purpose solution designed to tackle the most challenging terrain. Engineered for tractors with **40-50 PTO horsepower**, this robust mower is the ultimate tool for shredding grass, thick weeds, and brushwood up to **2" in diameter**.

Specifically designed for precision in tight areas, the FRF and BRF lines are the ideal choice for **mowing along fence lines**, maintaining **orchards**, and clearing **ditch banks or pond edges**. Its unique hydraulic capabilities allow you to reach areas traditional mowers simply cannot.

Key Performance & Versatility Features

- **Extreme Tilt Range:** Features a specialized head that tilts 90 degrees upward and 65 degrees downward for sloped embankments.
- **Hydraulic Right-Hand Offset:** Designed to offset to the right, allowing for safe operation while keeping the tractor on stable ground.
- **Aggressive Mulching Power:** Comes standard with 28 high-mass hammers (3.4" x 1.7") for maximum impact and debris reduction.
- **Heavy-Duty Drivetrain:** Equipped with a 4-belt side transmission and a Series 4 PTO drive shaft for reliable power delivery.

Technical Specifications

- **Working Width:** 63"
- **HP Requirement:** 40-50 PTO HP
- **Hammer Configuration:** 28 Hammers (Available with Hammers only)
- **Hydraulic Needs:** Requires 2 sets of rear tractor remotes
- **Operating Weight:** 703 lbs

Industrial Build Quality

- **Rotor & Roller:** Features a 4.2" diameter rotor and a 4.7" diameter rear roller for consistent height control.
- **Transmission Protection:** 4-belt side drive system protects the engine from shock loads.

- **Wide Application:** Compatible with a variety of tractors within the 20-100 HP range depending on the series.

Ideal Use Cases

- **Ditch Banks & Embankments:** The 65-degree downward tilt makes it a premier choice for steep slopes.
 - **Orchards & Vineyards:** Safely mow under low-hanging branches while the tractor remains in the row.
 - **Fence Lines & Ponds:** The 90-degree upward tilt and offset allow for vertical clearing and pond-edge maintenance.
-
