Product Description

IronCraft PHD Series: 25-65 PTO HP Standard-Duty Post Hole Digger

The **IronCraft PHD Series** is a rugged, utility-sized **3-point post hole digger** engineered for tractors ranging from **25 to 65 PTO horsepower**. Whether you are installing a new perimeter fence or boring holes for footings, this high-performance auger system makes digging fast and effortless, reaching depths of up to 45 inches.

Built for longevity and safety, our post hole digger is **Category 1 and 2 hitch compatible** and features a high-strength **2-7/8" O.D. tubing** frame. To protect your investment, every unit includes a **shear bolt driveline** to prevent gearbox damage when encountering underground rocks or roots.

Key Features & Boring Performance

- **Versatile Hole Diameters:** Designed to work seamlessly with 6", 9", and 12" diameter augers for various post sizes.
- **Replaceable Cutting Edges:** Features bolt-on steel edges that can be swapped out easily to maintain maximum boring speed in tough soil.
- **Heavy-Duty Gearbox:** Utilizes a 3:1 gear ratio with a 2" output shaft for high-torque performance in packed clay or rocky earth.
- **Reinforced Frame Design:** Both the A-frame and boom are constructed from thick 2-7/8" O.D. steel tubing for superior structural rigidity.

- **Advanced Safety Guarding:** Includes standard protection for the driveline, gearbox U-joint, and output shaft to ensure safe operation.

Technical Specifications (PHD Series)

- **PTO Horsepower Range:** 25 - 65 HP
- **Hitch Compatibility:** Category 1 and Category 2 (Cat 1 & 2)
- **Driveline Protection:** Shear Bolt System
- **Output Shaft:** 2-inch diameter
- **PTO Drive Shaft:** Yoke TS 6-spline
- **Weight:** 265 lbs (Power Head and Frame)

Common Fencing & Construction Applications

- **Agricultural Fencing:** Quickly set line posts and corner braces for livestock pastures or property boundaries.
 - **Pole Barn Construction:** Drill precise holes for structural support poles and foundation footings.
 - **Orchard & Vineyard Planting:** Create uniform holes for fruit trees, grapevines, or nursery stock.
 - **General Landscaping:** Ideal for installing deck piers, mailbox posts, and commercial signage.
-
