Product Description

IronCraft Snow Cannon™: 54" Mechanical 3-Point Snow Blower

The **IronCraft Snow Cannon™ SSNB-54-M** is a high-performance **54-inch Mechanical Snow Blower** engineered for tractors starting at **15 HP**. Designed to eliminate the back-breaking labor of manual shoveling, this 3-point hitch attachment clears deep drifts, heavy snowfall, and packed ice from driveways and pathways with industrial efficiency.

Built for durability and precision, the Snow Cannon™ is **Category 1 hitch compatible**. Its compact 54-inch width makes it the perfect choice for navigating tight spaces, clearing narrow sidewalks, and maneuvering around obstacles on residential or commercial properties.

Extreme Winter Performance & Features

- **Efficient 54" Clearing Path:** Perfectly sized for sub-compact and compact tractors, ensuring full coverage of the tractor's tire tracks in a single pass.
- **Heavy-Duty Mechanical Drive:** Engineered to chew through frozen snowbanks and wet, heavy slush that stalls standard walk-behind blowers.
- **Precision Maneuverability:** The 3-point mount design allows for easy lifting and lowering, giving you total control over various terrain types and inclines.
- **Versatile Chute Control:** Comes standard with manual rotation, with an **optional hydraulic chute kit** available for on-the-fly adjustments from the tractor seat.

Technical Specifications (Model SSNB-54-M)

- **Working Width:** 54" (4.5 Feet)
- **Power Requirement:** 15 HP Minimum
- **Operating Weight:** 366 lbs for reliable down-pressure and traction.
- **Hitch Compatibility:** Category 1 (Cat 1) 3-Point Hitch.
- **Chute Rotation:** Manual (Hydraulic Option Available).
- **Product Family:** IronCraft 3-PT Snow Blower Series.

Primary Winter Management Applications

- **Residential Driveway Clearing:** Transform your tractor into a winter powerhouse to clear long drives in minutes rather than hours.
 - **Commercial Pathway Maintenance:** Ideal for property managers needing to clear walkways and narrow access points at schools, parks, or retail centers.
 - **Parking Lot Detail Work:** Maneuver around curbs and light poles where larger truck-mounted plows cannot reach.
 - **Rural Property Access:** Maintain clear paths to barns, sheds, and livestock feeders through the toughest winter storms.
-
