Product Description

IronCraft Snow Cannon™: 68" Mechanical 3-Point Snow Blower

The **IronCraft Snow Cannon™ SSNB-68-M** is a powerful **68-inch Mechanical Snow Blower** built for tractors with at least **30 HP**. Engineered to replace the physical strain of manual clearing, this heavy-duty 3-point attachment is designed to throw large volumes of snow from expansive driveways, commercial parking lots, and rural pathways with speed and precision.

Standard with a **Category 1 hitch**, the SSNB-68-M provides the versatility needed to navigate tight spaces while offering enough width to clear significant paths in a single pass. Whether you are dealing with fresh powder or sun-packed ice, this snow cannon ensures your property remains accessible throughout the harshest winter months.

High-Capacity Snow Removal Features

- **Wide 68" Clearing Path:** Ideal for mid-sized compact tractors, ensuring you clear a path wider than your tractor's wheelbase for maximum efficiency.
- **Aggressive Mechanical Auger:** Designed to chew through heavy, wet snow and hard-packed drifts that would stall lesser equipment.
- **Heavy-Duty Construction:** Weighing in at 506 lbs, this unit provides the necessary down-pressure to scrape closer to the surface for a cleaner finish.
- **Manual Chute Rotation:** Comes with a reliable manual adjustment system, with an **optional hydraulic chute kit** available for effortless control from the cab.

Technical Specifications (Model SSNB-68-M)

- **Working Width:** 68" (5.6 Feet)
- **Power Requirement:** 30 HP Minimum
- **Hitch Compatibility:** Category 1 (Cat 1) 3-Point Hitch
- **Operating Weight:** 506 lbs for superior stability and traction
- **Chute Rotation:** Manual (Hydraulic Upgrade Available)
- **Product Family:** IronCraft 3-PT Snow Blower

Winter Property Maintenance Applications

- **Large Residential Estates:** Clear long, winding driveways and private roads in a fraction of the time spent with a plow or shovel.
 - **Commercial Parking Lots:** Efficiently move snow away from storefronts and parking stalls where space for piling is limited.
 - **Municipal & Institutional Use:** Maintain clear access to schools, community centers, and public walkways during heavy snow events.
 - **Agricultural & Ranch Access:** Ensure vital pathways to barns, livestock pens, and hay storage remain open all winter long.
-
