Product Description

IronCraft Snow Cannon™: 78" Mechanical 3-Point Snow Blower

The **IronCraft Snow Cannon™ SSNB-78-M** is an industrial-strength **78-inch Mechanical Snow Blower** designed for high-horsepower tractors starting at **50 HP**. Engineered to dominate extreme winter conditions, this 6.5-foot snow cannon clears massive amounts of snow from wide driveways, commercial lots, and rural access roads with unmatched speed.

The SSNB-78-M is built for versatile professional use, featuring a **Category 1 & 2 dual hitch** configuration. Whether you are cutting through frozen drifts or managing heavy, wet snowfall, this mechanical blower saves time and fuel by clearing wide paths in a single pass while protecting your tractor's driveline.

Extreme Capacity Snow Removal Features

- **Extra-Wide 78" Clearing Path:** Perfectly matched for utility tractors, ensuring full coverage of wide tire footprints and reducing the number of passes required.
- **Heavy-Duty Mechanical Auger:** High-torque design effectively pulverizes packed snow and ice, throwing it clear of the work area to prevent berm buildup.
- **Dual-Hitch Compatibility:** Flexible mounting options for **Category 1 and Category 2** 3-point hitches, allowing the unit to work across various tractor fleets.
- **Industrial Down-Pressure:** At 748 lbs, this unit stays grounded to scrape surfaces clean and handle the resistance of deep, settled snow.
- **Adjustable Discharge Chute:** Features manual rotation as standard, with an **optional hydraulic chute kit** available for effortless precision from the cab.

Technical Specifications (Model SSNB-78-M)

- **Working Width:** 78" (6.5 Feet)
- **Horsepower Requirement:** 50 HP Minimum
- **Operating Weight:** 748 lbs for maximum stability and traction.
- **Hitch Type:** Cat 1 & Cat 2 Compatible.
- **Drive System:** Heavy-Duty Mechanical PTO.
- **Chute Rotation:** Manual (Hydraulic Upgrade Optional).

Primary Commercial & Large Property Applications

- **Commercial Parking Lot Management:** Move snow quickly away from retail storefronts and loading docks where piling space is limited.
 - **Municipal & Campus Maintenance:** Keep wide boulevards, regional school paths, and city parks accessible during heavy winter storms.
 - **Large-Scale Ranching & Farming:** Clear miles of private roads and maintain access to livestock feeding areas through the deepest drifts.
 - **Residential Estate Clearing:** The ultimate tool for homeowners with massive driveways who need professional-grade snow management tools.
-
